Longevity and the New Frontier of Ageless Aging

The Longevity Revolution is here, and it's rapidly changing every industry in the world.

For the first time in history, there are more than 2 billion adults over the age of 50. And that's just the beginning of the story, as the number of older adults is projected to double in the next three decades. Your consumer base is dramatically transforming, creating unprecedented opportunities and challenges for your business, for your customers, and for you.

The good news is, there is a tremendous upside to living longer today, as longevity science gives us new and constantly evolving ways to age more agelessly—with the potential to not just increase our lifespan, but more importantly, our healthspan, brainspan, and wealthspan.

Maddy Dychtwald's presentations explain the many ways your business, organization, or association can best prepare to thrive in the new age of longevity—and how you can help your customers flourish as they live longer, more productive lives.

“We're in the midst of a healthspan revolution. Maddy Dychtwald brings together the best-of-the-best expert advice, breakthrough research, and practical action steps to help individuals take control of their future.”

– Peter H. Diamandis, MD

Founder/Chairman, XPRIZE; NYTimes Best Selling Author of *Abundance*, *BOLD* and *Life Force*.

We have the power to better match our healthspans to our lifespans, with extra years full of purpose, joy, and vitality.

As Maddy describes in her highly anticipated new book, *Ageless Aging: A Woman's Guide to Increasing Healthspan, Brainspan, and Lifespan*, (May 2024, Mayo Clinic Press), we can create our own holistic recipe for ageless aging.

Maddy shares simple but potent changes everyone can make, from changing our attitudes towards aging to what we eat

and how we move our bodies, from learning to take control of our healthcare to building new purpose and social connections, from understanding and managing brain health and hormones to taking control of our financial security—at age 40, 50, 60, 70, 80 and beyond.

“Maddy delivers powerful insights and opportunities into the influential and lucrative women’s 50+ market.”

– Stephanie Fischer, President and CEO,
Global Retail Marketing Association

About Maddy

Recognized by Forbes as one of the top 50 female futurists globally, Maddy Dychtwald has spent nearly four decades exploring all aspects of the age wave and the new era of longevity and how it is fundamentally transforming our lives.

Maddy is an award-winning author, acclaimed public speaker, and thought leader on longevity and aging, health, wellness, and the new retirement. A successful entrepreneur, she is also the co-founder of Age Wave, the world’s leader in understanding and addressing the far-reaching impacts of longevity and our aging population.
